About

As a B.Tech student, I'm eager to explore how technology and innovation can shape the future. I'm focused on developing strong technical and analytical skills while learning to think creatively and work collaboratively. My goal is to grow into a confident professional who learns, adapts, and leads with purpose.

Top skills

C (Programming Language) • Web Development • Microsoft Word • Teamwork

- c) Create a simple post about “My Learning Journey in Digital Literacy.”

My Learning Journey in Digital Literacy

Digital literacy has transformed the way I learn, communicate, and create. From exploring basic computer tools to understanding online safety and digital responsibility, every step has made me more confident and future-ready. This journey taught me that technology is not just about using devices — it's about using them wisely, creatively, and responsibly to make a positive impact in the digital world .

Today, I feel confident using technology not only for learning but also for creativity, communication, and collaboration. My digital literacy journey has helped me adapt to new challenges and stay future-ready in an ever-evolving digital world. I'm excited to ...more
